

ARCLIGHT ACQUIRES FUENTE DE PIEDRA COGENERATION AND BIOMASS PLANTS FROM GRUPO ALDESA

6/24/2010

BOSTON, June 24, 2010 – ArcLight Capital Partners, LLC (“ArcLight”), through its wholly owned affiliate Neoelectra Management, SLU (“Neoelectra”), acquired 100 percent of the common stock of Fuente de Piedra Gestion, SAU and Biomasa Fuente de Piedra, SAU (owners of a 16.4 MW CHP and 8.9 MW biomass plant respectively) from a wholly owned affiliate of Grupo Aldesa (“Aldesa”). Madrid-based Aldesa is among Spain’s largest privately-owned real estate and construction companies, with more than 3,800 employees and total sales in excess of €1.5 billion at the end of 2008.

Neoelectra is a strategic platform company which ArcLight established in Spain in order to capitalize on the opportunity to aggregate a profitable portfolio of cogeneration and biomass plants through acquisitions from non-energy corporates looking to refocus on their core businesses. Neoelectra is actively pursuing other M&A opportunities within the Iberian Peninsula.
